Training & Demonstration	5.7(5,7)4				
Instructor explains clearly,encourages & answers questions	6.0(5,7)4				

Comments and Suggestions

How do you think workshops can be improved further?

overall Good.Got to know about many oppurtunities.Time & Duration was constraint.

Hands on Experience for operating each instrument & their associated softwares. Briefing about few electronics relating basic technologies.

Kindly add some supportive data prior to attend such Workshop.

Need to add electronics devices card to demonstrate to school/students/college students.

Instructor explains clearly,encourages & answers questions	6.0(6,6)6				

Comments and Suggestions

How do you think workshops can be improved further?

I think these workshops can be improved by demonstrating only a few instruments but giving full,deep knwoledge.These workshops should also be demostrated for college students.

Its good for a beginer,my suggestion programme is time constraint,please make the traning section one day programm or make it 1,2 instrument training program.

How do you think workshops can be improved further?

Live scan to 3D model,If we can do that on repetable basis

More practical examples need to include.

more material we can take home
