

# Tinkering in a Day!

Core Instrument Training Program

Design | Simulation | 3D Printing | Electronics | Optics | Prototyping | Testing

Focus Areas: Electronics, Instrumentation and Optics besides related prototyping and design.

Who can benefit: Undergraduate / Post Graduate Students ; Hobbyists / Professionals

**28 April 2018 ; Time: 9.00 AM to 1.00 PM**

Register here: <http://tinkeringlab.co.in/>

## Learn following Instruments in a Day!

### | Prototyping |

- 3 D Printer: Ultimaker 2+
- 3 D Scanner: Cubify Sense
- Graphtec Cutting Plotter
- TIL 6040 Laser Cutter
- LPKF PCB Cutter

### | Electronics |

- Spectrum Analyzer Mixed Domain Oscilloscope
- Arbitrary Function Generator

### | Optics |

- Spectrometers :Range -200-1100 (nm)
- Diode lasers & power supply
- Sampling Accessories
- Optical Fibers
