Introduction

Would you prefer fixing gadgets yourself instead of making repeat trips to a service center? This workshop introduces basic hardware skills useful for the hobbyist, and provides hands-on sessions with the tools, along with a discussion of various functionalities. The first garage series of hardware workshop is focused on women only. The objective of the workshop is to have an empowering day with learning hardware skills and confronting social myths.

Event Outline

This Course on the Hardware Skills workshop contains the following:

- Safety in the Workshop
- Measurement tools: Screw gauge, Vernier calliper, level gauge, measuring tape, IR thermometer etc.
- Types of adhesives and tapes. Glue gun. Heat gun.
- Hand tools: Plier, chisel, types of hammers, screwdrivers, spanner
- Power tools: jig-saw, angle grinder
- Cutting tools: Handsaw, hacksaw, aviation snip

The speed and direction of the workshop will be participant led.
Tools and materials will be provided.

Highlight : learn with us how to fix your own scooter issues (Live demo & hands-on session)

Mandatory: All participants should wear thick-soled safety shoes. No jewellery or long-sleeved/loose clothing permitted. Long hair should be tied. Stringent action will be taken for violation of safety instructions.

Event includes

- Access to restricted website with online compilation of resources.
- Certificate of participation issued by Venture Center.
- Membership in mailing list to other workshops by Venture Center.

Speakers (in alphabetical order of last names)

Sayali is Coordinator-Protoshop at Venture Center. She is B.E. (Instrumentation & Control Engineer) from University of Pune. She is running current facilities in Protoshop. She operates all the instruments in lab, provides training, plans & executes setting up & maintenance work in Protoshop also involved in creating, planning and organizing technical and scientific workshops & hands-on lab exercises with Tinkering lab instruments.

Anjan is Mechanical Engineer graduated from CMR Institute of Technology Bengaluru. He is having 4 years of experience in Product Design & Prototype at venture center. He is responsible for running facilities at protoshop and also setting up technical and non – technical workshops.

About the organizers

Protoshop combines Tinkering lab and Prayashala, which are the prototyping facilities at Venture Center. Protoshop is an initiative of Venture Center (a technology business incubator hosted by CSIR-NCL) with the generous support from in-house funds and the host Institution. It aims at providing services to the Inventors and Entrepreneurs to design and build their prototypes and bringing their ideas into life. For more information about Protoshop: <http://www.protoshop.in/>

The Tinkering Lab is a facility developed and managed by Venture Center, NCL Innovation Park, Pune, India. The main aim of the Tinkering Lab is to help inventors and entrepreneurs to build prototypes of their ideas and generally “tinker” around exploring new ideas. The focus is on electronics, instrumentation and optics besides related prototyping and design. For more information, visit <http://tinkeringlab.co.in/>

Entrepreneurship Development Center (Venture Center) – a CSIR initiative – is a Section 25 company hosted by the National Chemical Laboratory, Pune. Venture Center strives to nucleate and nurture technology and knowledge-based enterprises by leveraging the scientific and engineering competencies of the institutions in the Pune region in India. The Venture Center is a technology business incubator supported by the Department of Science & Technology’s National Science & Technology Entrepreneurship Development Board (DST-NSTEDB). Venture Center’s focuses on technology enterprises offering products and services exploiting scientific expertise in the areas of materials, chemicals and biological sciences & engineering. For more information, visit: <http://www.venturecenter.co.in/>
