

THREE DAYS INTENSIVE
WORKSHOP ON
**ADVANCED
ARDUINO**

WORKING WITH MULTIPLE SENSORS
& OUTPUT DEVICES

TUESDAY-THURSDAY
11-13 DECEMBER 2018
TIME: 1600 - 1830

LEARN

How to communicate between two Arduinos with/without wires ?
How to communicate between a smartphone and the Arduino ?
How to use Arduino with a sensor that requires more than 5V DC ?
How to save data on an external storage device using the Arduino?
How to use smart cards with the Arduino ?
In-depth discussion of internal libraries...
and many more...

Workshop Director

Dr. Chirag Kalelkar

Assistant Professor

Indian Institute of Technology,
Kharagpur
