

THREE DAYS INTENSIVE  
WORKSHOP ON  
**ADVANCED  
ARDUINO**

WORKING WITH MULTIPLE SENSORS  
& OUTPUT DEVICES

THURSDAY - SATURDAY  
10-12 OCTOBER 2019  
TIME: 1600 - 1830

**LEARN**

- How to communicate between two Arduinos with/without wires ?
- How to communicate between a smartphone and the Arduino ?
- How to use Arduino with a sensor that requires more than 5V DC ?
- How to save data on an external storage device using the Arduino?
- How to use smart cards with the Arduino ?
- In-depth discussion of internal libraries...
- and many more...

**PREREQUISITE: FAMILIARITY WITH BASIC ARDUINO PROGRAMMING**

**Workshop Director**

Dr. Chirag Kalelkar

Assistant Professor

Indian Institute of Technology,  
Kharagpur
