

**Online lecture course on "Data Analysis Using MATLAB" | 26 - 30 November 2020**

**Evaluation Results**

Category	Avg (Max-Min) Count	Rating Scale			
<b>Section 1 - Event</b>					
Overall Satisfaction with Event	5.6 (4,7)25	1	Bad	2	Well below average
Satisfaction with Content	5.7(5,7)25	3	Below average	4	Average
Satisfaction with Speakers	6.6(6,7)25	5	Good	6	Very Good
Satisfaction with structure,design and pace of event	5.8(5,7)25	7	Excellent		

**Please Provide the following information**

You are a:		You became know of this event via:	
Student	19	E-mail	21
Research Student	2	Social Media	
Employed	2	Advt	
Faculty	1	Other	4
Consultant	1	Not mentioned	

**City from where you joined this workshop**

Pune (12)	Vijayawada (1)	Balasore (1)
Sonipat -Haryana (1)	Delhi (2)	Bangalore (1)
Vadodara (1)	Alibaug, Raigad, Maharashtra (1)	Varanasi (1)
Nagpur (1)	FARIDABAD HARYANA (1)	Durgapur (1)
Kolkata (1)		

**Other suggestions, comments etc**

More matlab session can be provided
More training on running codes
Overall the workshop is very informative.
Excellent course, very well conducted. Hope to practice on MATLAB in coming days.
The workshop was really helpful.
If any other this kind of workshops are arranged in future please let us know.
Concepts were well explained such that we can apply to our field of interest. Interesting examples were selected which helped in better understanding.
It's really nice sessions and explanations thank you
Hands on workshop
All Sessions were Good.

<p>Pace can be a little slower to note formulae etc. because we are not getting the slides. Otherwise well presented, speaker faculty very helpful. Thanks for this opportunity.</p>
<p>No comments</p>
<p>satisfactory.</p>
<p>The event mentioned Data Analysis using MATLAB, but Matlab used is very less, Not able to learn much in matlab, it will be better if we could offer to write in matlab and how to correct things in matlab. I studied the theory already. This doesnt benefited me much.</p>
<p>it was a great experience to participate</p>
<p>The session was very informative well-structured. Will be very helpful in my future research.</p>
<p>The Workshop was well designed and executed. The examples of the practical approach of different laws and theories were extremely helpful to understand its applications and limitations in a much better way. All the lectures were very engaging and insightful.</p>
<p>Please do a workshop for image analysis in Matlab as well.</p>
<p>The course was helpful. As it was a MATLAB workshop, I expected more examples to explain using MATLAB. Overall the course was good.</p>
<p>There are a lot of theories which are obviously important, but a bit extra involvement with MATLAB is badly needed.</p>
