Please Provide any other suggestions, comments or any other topics you wish to suggest for a future talk/ workshop?					
The workshop was really good and got a hands on experience on both solid works and printing those models in real. Thanks to Anjan and his team for organising such a fruitful workshop! Looking forward to attend more workshops.					
Very nice and informative workshop...want to participate in coming workshops					
The workshop was excellent, it was very basic to entry level user who had no prior experience on this					
The workshop was very good got an amazing experience					
Overall great workshop. Great content provided and speakers had excellent knowledge of the topic.					
It was an interesting workshop to attend. It was great to learn more about the basics of 3d modeling and the hands on sessions was on point.					
Please Provide any other suggestions or any other topics you wish to suggest for a future talk/ workshop					
Would love to go more deep in abs enclosures designing.					
More different fields of designing					
Bio materials					
I would like to have hands on 2D drawings and some exposure on standard drawings etc					
Time for the actual 3D printing can be increase					
PCB design and other Electronics applications					
Different machining devices and their uses					
Please arrange a workshop in the future regarding 2D modelling. How to industry level drawings pretty basic elements					
Should have given more time on 3D printing it self					
Great experience. Looking forward for similar workshops.					
Can reduce the load on the number of assignments, where you can give only important and challenging exercises
